

QA Engineer

Location:	Midrand
Type:	Permanent
Reference:	#MM59160
Company:	E-Merge IT Recruitment

Join a cutting-edge online background screening platform dedicated to revolutionizing the trust economy. We're on a mission to democratize access to trust through innovative features and customized solutions. If you're a skilled QA Engineer ready to make a difference, come join our dynamic team today!

Key responsibilities:

- Develop and execute comprehensive test plans, test cases, and test scenarios aligned with project requirements and technical specifications.
- Drive the development, execution, and maintenance of Automated Test Frameworks and Scripts for APIs, Web, and Database applications.
- Continuously identify areas for enhancement within the quality system and propose effective solutions.
- Conduct regular regression testing to maintain product stability and reliability.
- Contribute to the continuous improvement of testing processes and methodologies.
- Provide mentorship and guidance to junior team members, fostering a culture of learning and growth.
- Collaborate closely with developers and the Product Analyst to coordinate User Acceptance Testing (UAT) and other testing-related activities.
- Identify process and application inefficiencies, offering actionable suggestions for improvement.

Qualifications:

Bachelor's degree in IT.

Experience:

- 1- 3 years
- Basic understanding of CI/CD pipelines and tools such as Jenkins or AzureDevOps.
- Sound understanding of QA methodologies, SDLC, RDBMS, and MS Office Golang
- Demonstrable expertise in Manual testing methodologies.
- Familiarity with version control systems such as Git.
- Basic knowledge of containerization technologies like Docker.
- Basic understanding of mobile testing for iOS and Android platforms.
- Service Oriented Architecture (SOA)
