

The SAPIA 30th Conference 2024

This premium event is designed by professionals operating at the forefront of the energy landscape in South Africa and will provide insight and a unique perspective into the challenges faced by the industry as it transitions into the future. This will be an opportunity for the conference attendees to network with industry peers and leaders and is aimed at mid to senior level executives.

The SAPIA Conference 2024 will cover a range of vital themes and topics for the South African energy sector. With insightful discussions from speakers from government and industry experts who make up the energy value chain, attendees can expect to gain valuable insights and knowledge-sharing opportunities that will help you stay ahead of the curve in your respective fields.

Date: 11 July 2024

Time: 08:00 - 16:00

Venue: Sandton Convention Centre, Sandton
